QUALITY

We are certified to ISO9001:2015 by BSI, valid until 12 February 2028. A copy of the certificate as well as our BSI Membership certificate can be found at <https://www.oheap.co.uk/about-us/accreditations/>

A copy of our Quality Policy Statement is available at <https://www.oheap.co.uk/about-us/company-policies/>

We do not manufacture products.

ENVIRONMENT & WASTE

We are certified to ISO14001:2015 by BSI and our accreditation is valid until 27 November 2027. A copy of the accreditation certificate as well as our BSI Membership certificate can be found at <https://www.oheap.co.uk/about-us/accreditations/>

A copy of our Environmental Policy Statement is available at <https://www.oheap.co.uk/about-us/company-policies/>

We are a Lower Tier registered Waste Carrier with registration number CBDL244250. The certificate can be found at <https://www.oheap.co.uk/about-us/accreditations/>. Please note that as this is Lower Tier, the certificate does not have an expiry date. This registration can be verified at <https://environment.data.gov.uk/public-register/view/search-waste-carriers-brokers>

We have never had any investigation or enforcement action taken against us in relation to any environmental issues.

INFORMATION SECURITY

A copy of our GDPR/Privacy Policy is available at <https://www.oheap.co.uk/about-us/company-policies/>

We are registered with the Information Commissioner's Office ('ICO') and a copy of the certificate can be found at <https://www.oheap.co.uk/about-us/accreditations/>

We do not have any external information security certification.

Policy

We have a detailed Health & Safety Policy which is available for download from our website at <https://www.oheap.co.uk/about-us/company-policies/>

This document covers all our procedures for health & safety in the workplace. We encourage all our customers to read this as it should cover most of your questions. If you require any information which is not contained in the policy or detailed below, please contact us.

Responsible and Competent Persons

The Health & Safety Policy provides the details of the persons responsible for Health & Safety within the organisation.

Our nominated external H&S advisors are Citation Ltd, Kings Court, Water Lane, Wilmslow, Cheshire SK9 5AR (<https://www.citation.co.uk/>). Our nominated competent person employed by Citation is Becky Cammillare GradIOSH.

Plant & Equipment

We do not possess or operate heavy plant and equipment; the vast majority of our work is undertaken using hand tools only. Power tools such as 110 Volt SDS drills are used occasionally. If high level access equipment (e.g. scaffold tower or mobile elevating working platform) is required, this is hired in from firms registered with the CPA, and will only be operated by suitably qualified personnel; details will be provided at the time the work is booked in.

Hazardous Activities

Other than occasional work at height, we do not undertake any hazardous work such as use of naked flames, welding/burning or excavation.

Site Safety

We do not routinely work on construction sites.

Our technicians typically work alone or sometimes in pairs and are usually required to visit several sites each day; on that basis we do not often undertake site safety meetings or carry out on-site toolbox talks. Training is delivered either online or at our Headquarters building.

Investigation & Enforcement

We have had no investigation or enforcement action taken against us in relation to any Health & Safety issues in the last 5 years.

Risk Assessments

The vast majority of our servicing and maintenance work is carried out on the basis of a standard set of Risk Assessments which can be found at <https://www.oheap.co.uk/about-us/risk-assessments/>

SSIP Accreditations

We are accredited by the following organisations - all certificates are available at <https://www.oheap.co.uk/about-us/accreditations/>:

- Alcumus SafeContractor
- Constructionline
- CHAS

Accidents & Incidents

Accident statistics are confidential and we are unable to supply any details other than the following:

2024 YTD	No reportable accidents, incidents, diseases or near misses
2023	1 'Over 7 days' injury, no other reportable accidents, incidents, diseases or near misses
2022	No reportable accidents, incidents, diseases or near misses
2021	No reportable accidents, incidents, diseases or near misses

TRAINING & COMPETENCE

Health & Safety

All technicians undergo induction and refresher training in H&S subjects including:

- Fire Safety Awareness
- Lone Working
- COSHH
- Manual Handling
- Ladders & Steps
- PPE
- Asbestos Awareness
- Driving at Work
- Environmental Awareness

Competency

Competency requirements vary by discipline as our technicians specialise in one of the following:

- Fire Extinguishers
- Fire Alarms/Emergency Lighting
- Security Systems

Our procedures for ensuring competency of technicians are independently verified by the following bodies:

- Extinguishers – BAFE (SP101) and BSI (ISO9001)
- Fire Alarms & Emergency Lighting – BAFE (SP203), NSI (NSI Gold Fire) and BSI (ISO9001)
- Security – NSI (NACOSS Gold) and BSI (ISO9001)

Details of our certification by these organisations can be found at <https://www.oheap.co.uk/about-us/accreditations/>

Evidence

Our training matrix is quite extensive and varies by specialism, so it is difficult to provide in a simple format. We are always happy to provide competency records for individual technicians on request at the time of booking a visit.

DBS, SCREENING AND VETTING

There is no 'one size fits all' solution to the issue of screening. Our staff and technicians will undergo screening and vetting as required by their role, the customer(s) they deal with and/or the sites that they are required to visit. This could include various levels of DBS check, Non-Police Personnel Vetting, or screening to BS7858 which is required for those working with Security Systems.

For Data Protection reasons, we are unable to supply a global list of personnel detailing what checks they have undergone. We recommend that if you believe that the person carrying out the work for you will require a certain level of check in order to fulfil their duties, this should be raised at the time of booking the visit and we will be happy to supply details to you.

SOCIAL VALUE

For more details on our commitment to Corporate Social Responsibility, please see <https://www.oheap.co.uk/corporate-social-responsibility/>

We have independent verification of our commitment to Social Value through our Constructionline Gold membership – the Constructionline Social Value certificate can be found at <https://www.oheap.co.uk/about-us/accreditations/>

ANTI- BRIBERY POLICY

This can be found at <https://www.oheap.co.uk/about-us/company-policies/>

MODERN SLAVERY POLICY

We are not required to report on the subject of Modern Slavery but our current policy can be found at <https://www.oheap.co.uk/about-us/company-policies/>

PURCHASE ORDERS, ACCOUNTS AND CREDIT CONTROL

Purchase Orders should be directed to sales@oheap.co.uk

We do not have dedicated account handlers for particular customers or suppliers. For any accounts related queries (purchase or sales) please contact 01332 366721.

Remittance Advices should be sent to remittances@oheap.co.uk

Any credit control enquiries should be directed to creditcontrol@oheap.co.uk

CONTACTS

For any queries in relation to the content of this document, please contact Iain Wishlade, Compliance Manager, iainw@oheap.co.uk or compliance@oheap.co.uk

For general business-related queries or to discuss placing business with us, please contact enquiries@oheap.co.uk in the first instance.
